No-Prep Therapy Activity: Guess My Insect!

by Rynette R. Kjesbo, M.S., CCC-SLP

Are you busy as a bee? ... buggin' out because there's no time to plan activities? ...itching for new therapy ideas? We can help! Use this no-prep insect activity to target language, articulation, or fluency goals! You won't bee-lieve how much fun your students will have practicing their targeted skills!

Number of Players

- 2 or more

Materials Needed

- *Guess My Insect* game page (one copy for each player or team)
- Pencils or crayons
- Bingo Chips (optional)
- Laminate game pages and use dry erase markers during game play (optional)

Object of the Game

Guess your opponent's insect by asking "yes" or "no" questions about its features.

Directions

- Provide each player with a copy of the game found on the next page.
- Each player selects an insect that his/her opponent will be attempting to guess.
- Begin by asking your opponent a "yes" or "no" question about his/her chosen insect:
 - o **Example:** You might ask "Does your insect have at least 6 legs?" If your opponent answers "yes," eliminate all pictures of insects with no legs by crossing them out or covering them with a bingo chip. If your opponent answers "no," cross out or cover all insects with 6 or more legs.
- Take turns asking questions to try to guess your opponent's insect. When you feel confident you can guess your opponent's insect, do so during your turn.

Tips for Game Play

- It is helpful for the adult to record the number of the picture chosen for each player and keep the answer safe until the end of the game.
- For groups of players larger than two:
 - o Divide into teams of two.
 - o Designate one player to answer questions and the remaining players to ask the questions. The player who guesses the picture correctly then becomes the player answering questions.
- Use the visual cues found on the following page to help players struggling to identify, label, and describe attributes.
