## No-Prep Therapy Activity: Find the Lucky Clovers!

by Blair Bradley, M.S., CCC-SLP

St. Patrick's Day, March 17th, celebrates the life of St. Patrick, the patron saint of Ireland. St. Patrick was an important saint who established many churches and schools throughout Ireland. He is credited with using objects such as the three-leaf clover in his speeches. St. Patrick's Day has evolved into a celebration of all things Irish, including clovers, leprechauns, and the search for the pot of gold. Use this easy, no-prep therapy activity to target a variety of speech and language goals while searching for the lucky clovers on the activity sheet.

**Directions:** Choose the goal you want to target (articulation, WH questions, categories, or following directions). Use the prompts listed below with the attached activity sheet.

### GOAL: Articulation

Have your student create a sentence using his/her target sound and then find a lucky clover on the activity sheet.

Ex: Target sound /r/  
"I see a rainbow."

### GOAL: WH Questions

Ask one of the following questions, and then prompt your student to find one of the lucky clovers on the activity sheet.

- When does a rainbow appear?
- Where can you find the pot of gold?
- What is a clover?
- Why do people wear green on St. Patrick's Day?
- Who wears a green coat and hat and hides the pot of gold?

### GOAL: Categories

Prompt your student to name a category, then find one of the lucky clovers.

- Name this category: rainy, sunny, windy, snowy
- Name this category: chocolate, cake, candy, ice cream
- Name this category: green, yellow, red, blue
- Name this category: clover, rose, tree, grass

### GOAL: Following Directions

Prompt your student to follow the directions, then find one of the lucky clovers.

- Circle one three-leaf clover, then draw a square around a four-leaf clover.
- First, point to the leprechaun. Then, circle a three-leaf clover.
- After you draw a square around the pot of gold, circle a four-leaf clover.
- Before you point to the leprechaun, draw a circle around a four-leaf clover.

# Find the Lucky Clovers!

Circle all of the lucky 4-leaf clovers that you see. Can you find 12 of them?
